

## ANALYZING WORKPLACE INJURIES

# Transportation and Warehousing Industry

To reduce workplace injuries and fatalities, we must understand when, why and how they happen. Having this data on hand will allow businesses in hazardous industries to target problem areas and initiate solutions to reduce workplace accidents.

The Transportation and Warehousing sector is comprised of industries providing transportation of passengers and cargo, warehousing and storage for goods, scenic and sightseeing transportation, and support activities related to modes of transportation. Establishments in these industries use transportation equipment or transportation related facilities as a productive asset. The type of equipment depends on the mode of transportation. The modes of transportation are air, rail, water, road and pipeline.

### MOST INJURY INCIDENTS IN THE TRANSPORTATION & WAREHOUSING INDUSTRY OCCURRED:

at  
Noon

on  
Wednesday

in  
January

on Multiple  
Body Parts

to
